Lindsay B. Eastman, D.D.S., M.S

Dr. Lindsay Eastman has practiced as a successful periodontist since 1980. He received his post-graduate specialty training in Surgical Placement of Implants from Northwestern University Dental School in 1990 and afterwards completed Business Management and Leadership Training from Pride Institute. Dr. Eastman incorporates the latest techniques in reconstructive periodontics, tissue engineering and dental implants and was among the first group of dentists in the U.S. trained in computer guided implant surgery. He has served as the president of the Manatee Dental Society as a local board member since 1994 and is a Clinical Assistant Professor in Periodontology at the University of Florida College of Dentistry. He is a member of the American Academy of Periodontology, American Dental Association, American Academy of Osseointegration, American Dental Society of Anesthesiology, among many others, and is a Fellow in the Institute for Advanced Laser Dentistry.

Christie Eastman Craighead, D.M.D., M.S

Dr. Christie Eastman Craighead graduated with the highest distinction from Rollins College where she earned a Bachelor's Degree with Honors in Biology. Dr. Christie graduated at the top of her class from the University of Florida College of Dentistry and was awarded her Doctorate of Dental Medicine Degree in 2013. Throughout her studies and through observing her father, Dr. Eastman, Dr. Christie knew she also had a passion for periodontology. She finished her Graduate Periodontics Residency Program at the University of Florida in 2016 and received a Master of Science Degree and a Professional Certificate in Periodontics and is a Diplomate of the American Board of Periodontology. Dr. Christie appreciates the opportunity to provide periodontal and implant therapy for her patients and enjoys all aspects of the field of periodontology. She is dedicated to staying abreast of the latest advances in the field, and attends several courses every year to consistently provide optimal treatment.

Justin C. Craighead, D.M.D., M.S.

Dr. Justin C. Craighead is a leader and educator in Periodontics, Prosthodontics, and Implant Dentistry. Dr. Craighead is currently the only dual specialist in Periodontics and Prosthodontics in the State of Florida, and one of just a handful of specialist in the world with certificates in both specialties. Dr. Craighead earned specialty certificates in Periodontics and Prosthodontics as well as a Fellowship certificate and Master's Degree in Prosthodontics from the University of Florida. In addition to residency training, he has completed extensive postgraduate implant education as a graduate of the Misch Implant Institute and Pikos Institute. He has since had the honor of being inducted as a Fellow in the International Congress of Oral Implantologists and is a Diplomate of the American Board of Periodontology. Dr. Craighead specializes in a variety of cases, including dental implants, bone grafting, tissue grafting, crown lengthening, and comprehensive full-mouth rehabilitation, using modern, advanced techniques.

Rachael Voigt, D.M.D., M.S.

Dr. Rachael L. Voigt completed her dental training at Nova Southeastern University and was selected as a recipient of the Air Force Health Professions Scholarship. After graduation, she attended the Air Force Postgraduate Dental School in San Antonio, Texas, where she obtained her Master of Science degree and Certificate in Periodontics. During her time in residency, she was trained by world renowned Periodontists in all aspects of periodontal and dental implant care. Following residency, Dr. Voigt was chosen to teach Periodontics to General Dentists as part of the Air Force's Advanced Education in General Dentistry program. She is a Diplomate of the American Board of Periodontology and a member of several dental societies, including the American Academy of Periodontology, Florida Association of Periodontists, Southern Academy of Periodontology and the American Dental Association. Dr. Voigt is passionate about delivering the highest quality of care to her patients and to staying at the forefront of her specialty. She enjoys practicing the full scope of Periodontics, but especially enjoys minimally invasive surgery, bone grafting, tissue grafting and providing personalized treatments for her patients via digitized implant workflows.
